

# World Wide Technology Championship at Diamante

October 30 - November 5, 2023

## What is the World Wide Technology Championship?

The World Wide Technology Championship (WWTC) is an annual PGA TOUR FedExCup event. Since 2007, the WWTC has been held at Mayakoba and was the first PGA TOUR event contested in Mexico and also was the TOUR's first official event ever staged outside of the United States or Canada. The tournament is broadcast live on Golf Channel in the United States, Golf Channel Latin America in Mexico and Latin America and through the PGA TOUR's global distribution network to more than 200 countries and territories around the world. The WWTC is entering a new era and moving to Los Cabos and has selected Diamante's El Cardonal Course to host the event for the next five years. World Wide Technology is a systems integrator who provides digital strategy, innovative technology and supply chain solutions to large public and private organizations. The company embodies its philosophy of "we play a vital role in changing the world for the better" through creating a culture of "grit and determination, and the courage to do the right thing. We embrace change and adopt a spirit of innovation that makes that change count". Diamante Cabo San Lucas is honored to be the host property for the tour event, its title sponsor, and guests.

## What is the schedule of events?

At this time, we can confirm that a Pro-Am will be held on Wednesday, November 1 at El Cardonal. The televised tournament will be held November 2-5. The confirmed schedule of events is forthcoming from The PGA TOUR and we will notify all members as more events are added.

## How many attendees are anticipated per day?

The PGA TOUR intends to sell up to 5,000 tickets to spectators each day, not including tickets issued to our membership and TOUR guests.

## When will the golf course close for this event?

The El Cardonal Golf Course will fully close on July 15 – November 5 for extensive golf course maintenance.

## When will the golf course reopen for members?

El Cardonal will re-open Monday, November 6 for a full day of play.

## What will be closed during this event?

All El Cardonal facilities will be closed during the event. Designated areas for members will be available with more information forthcoming.

## What security measures will be in place?

Diamante Cabo San Lucas will provide security throughout the event week to increase community patrols and surveillance while event spectators and vendors are on-property. Access to the property will be restricted throughout the week. Additional security plans will be released as we cooperate with the event security needs and supplement our force for the overall comfort and protection of our members, our residents, and their homes.

## Will on-site parking be available to members?

We anticipate that parking will be available on-site for members' enjoyment but may be limited and available on a first-come, first-served basis.

## Will construction activity be impacted by this event?

Construction at Diamante will not be impacted except for all construction around El Cardonal will be suspended for the duration of the event (October 30 - November 5), and all activity will resume on November 6.
